

## SERVICES WE OFFER

**TREES AND SHRUBS:** Finest quality Seedlings, Transplants, Potted, and Larger Shade Trees. With our root pruning of seedlings as a part of nursery production, all of our tree plantings are continuing to show a survival rate of over 90%. After 40 years of tree planting we know a quality root system is the most important part of any tree for survival. Iowa inspection #468

**PRE PLANT SITE PREPARATION:** Whether you are using a tree planter or hand planting, site prep is essential. Undesirable vegetation and grasses must be removed to allow your newly planted tree to survive. You should plan 1 year ahead to get this part under control.

**TREE AND SHURB PLANTING:** We can plant your trees at correct spacing and species that are correct for your site. You have the right to plant what you want in your planting and will work with you and any govt. agency to see that this happens.

**WINDBREAKS:** Whether in town or in the country, we can design, and install your trees that are designed for this type of long term windbreak protection. There are many poor choices of trees that people can put in their windbreaks, we can do it right the first time for your home, farm or business. [www.windbreaktrees.com](http://www.windbreaktrees.com)

**FSI -- FOREST STAND IMPROVEMENT:** We can remove undesirable species and then prune or thin your desirable species in your forest area. This act will greatly increase the ability of your forest area to grow quality trees at a much higher value. For every \$1 spent on FSI it will return over \$10 in value. This act should be performed periodically usually starting at about 8 years after planting.

**POST PLANTING MAINTENANCE:** After planting, competing vegetation must be controlled the first 3 years for your trees to thrive or even survive. The use of herbicides is usually the cheapest and easiest way to get your trees off to a healthy start. We can also advise you on various types of control for animals that can devastate a tree planting.

**LARGER SHADE TREES AND PLANTING:** We sell and install larger shade trees around your home, farm or business. Proper trees for the soil conditions and placement will provide shade and beauty that will enhance your whole property and will increase your property value.

**LIVESTOCK BUILDINGS:** We have become the leader in Iowa for the placement of trees and shrubs around these buildings. Fast growing trees are 20' tall in 3 years & block odors and beautify the site. Several cost share programs are available for these projects. Our website has a whole section devoted to this. [www.windbreaktrees.com](http://www.windbreaktrees.com)

## DECIDUOUS TREES

On quantities less than 25 per species on small bare root plants the price is \$5 per plant

Species	Size	Prices 25 - 99	Prices 100+
---------	------	----------------	-------------

### BLACK OAK

Zone 2 to 7. Large tree with small acorns - common on dry, sandy or poor soils. Not a favorite lumber tree but grows well on above soils & can have a nice red leaf in fall. Red Oak family.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Potted	3' - 4'	\$37.50 Each	

### BUROAK

Zone 2 to 8. Valuable brown wood, rot resistant, good to poor, dry soil, medium growth, best for tough conditions, sweet acorns, White Oak family.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Bare root	24" - 30"	\$3.30	\$2.55
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	

### CHESTNUT OAK

Zone 4 to 8. Survives in poor soil or high PH soil, fast growth on good soil, bears large sweet acorns at a young age. White Oak family.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Bare root	24" - 36"	\$3.30	\$2.55
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	
Potted	5' - 6'	\$62.50 Each	

### CHINQUAPIN OAK

Zone 4 to 7. Medium size iwth small sweet acorns in Iowa occurs on high PH limestone bluffs & does very well on other soils. White Oak family.

Bare root	18" - 24"	\$2.30	\$1.55
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	

## DECIDUOUS TREES

Species	Size	Prices 25 - 99	Prices 100+
---------	------	----------------	-------------

### PIN OAK

Zone 4 to 7. Large bottomland tree, not lumber tree, small acorns for wildlife. Red Oak family.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Potted	3' - 4'	\$37.50 Each	

### RED OAK

Zone 4 to 7. Valuable red colored wood, upland species, fast growth, red leaves in fall.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Bare root	24" - 30"	\$3.30	\$2.30
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	

### SCARLET OAK

Zone 4 to 8. Uplands tree, grows well on dry soil, bright scarlet leaves in fall. Red Oak family.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Potted	24" - 36"	\$3.30	\$2.30
Potted	3' - 4'	\$37.50 Each	

### SWAMP BUR OAK HYBRID

Zone 4 to 8. Large round topped, survives in wet lowlands even with roots underwater for weeks at a time. Very large sweet acorns, good for riparian buffers. White Oak family.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Bare root	24" - 36"	\$3.30	\$2.55
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	
Potted	5' - 6'	\$62.50 Each	

## DECIDUOUS TREES

Species	Size	Prices 25 - 99	Prices 100+
---------	------	----------------	-------------

### SWAMP WHITE OAK

Zone 3 to 8. Large rounded tree, does well in bottomlands but not swampy ground. Large sweet acorns. White Oak family.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Bare root	24" - 30"	\$3.30	\$2.55
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	
Potted	5' - 6'	\$62.50 Each	

### WHITE OAK

Zone 3 to 8. Valuable light wood, good to fair soil. Medium growth, sweet acorns.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Potted	3' - 4'	\$37.50 Each	

### BLACK CHERRY

Zone 3 to 9. Valuable red wood, good to fair soil, fast growth, berries for animals.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	
Potted	5' - 6'	\$62.50 Each	

### BLACK WALNUT

Zone 4 to 9. Valuable dark, rot-resistant wood. Fast growth on well drained loam soil. Good for riparian buffers as beavers don't like Walnut bark.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Bare root	24" - 36"	\$3.30	\$2.30

### EASTERN COTTONWOOD

Zone 2 - 9. Large, tall, fast growing, good for wet soils, cotton can be a nuisance.

Cuttings	15"	\$2.25	\$1.50
----------	-----	--------	--------

## DECIDUOUS TREES

Species	Size	Prices 25 - 99	Prices 100+
---------	------	----------------	-------------

### HACKBERRY

Zone 2 to 9. Valuable white wood, good to fair soil, fast growth.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.30	\$1.55
Bare root	24" - 36"	\$3.30	\$2.55
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	
Potted	8' - 10'	\$185.00 Each	

### HYBRID "AUSTREE" WILLOW

Zone 4 to 9. Fast growth, likes wet places. Makes a good, quick shade tree or windbreak.

Cuttings	15"	\$2.25	\$1.50
1 Yr. Potted	4' - 8'	\$17.50	\$13.50 over 50

### NORTHERN PECAN

Zone 5 to 9. Large tree, likes deep moist soils, riparian buffer, very sweet tasting nuts.

Bare root	12" - 18"	\$3.30	\$2.55
Potted	2' - 3'	\$32.50 Each	

### RIVER BIRCH

Zone 3 to 7. Fast growing, does well in moist soils. Nice brown peeling bark.

Bare root	16" - 24"	\$2.30	\$1.55
Potted	2' - 3'	\$27.50 Each	
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	

### SHAGBARK HICKORY

Hard, heavy wood, good to fair soil, slow growth, upland tree, sweet nutmeat.

Bare root	2" - 5"	\$2.25	\$1.50
-----------	---------	--------	--------

### SILVER (Soft) MAPLE

Zone 3 to 9. Valuable light colored wood, extra fast growth, fair to wet soils. Good for riparian buffer zones.

Bare root	16" - 24"	\$2.30	\$1.55
Bare root	24" - 36"	\$3.30	\$2.55
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	
Potted	5' - 6'	\$62.50 Each	

## DECIDUOUS TREES

Species	Size	Prices 25 - 99	Prices 100+
---------	------	----------------	-------------

### SUGAR (Hard) MAPLE

Zone 4 to 8. Valuable wood, well drained soil, medium growth, maple syrup, upland tree.

Bare root	8" - 16"	\$2.05	\$1.55
Bare root	16" - 24"	\$2.80	\$2.30
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	
Potted	5' - 6'	\$62.50 Each	

### SYCAMORE

Zone 4 to 9. Large tree with large leaves, rapid growth on moist soils, white colored bark, affected by Anthracnose in Iowa.

Bare root	16" - 24"	\$2.30	\$1.55
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	
Potted	5' - 6'	\$62.50 Each	

## DECIDUOUS SHRUBS

### AMERICAN PLUM

Shrub that spreads through root suckers. White flower in early Spring, red or yellow fruit up to 1" in September.

Bare root	12" - 18"	\$2.30	\$1.55
Bare root	2' - 3'	\$3.80	\$2.80

### ARROWWOOD (Viburnum)

Zone 2 to 7. Large rounded shrub, 6' - 10' tall, white flowers in Spring & blue berries in Fall for birds.

Bare root	12" - 18"	\$1.80	\$1.15
Bare root	18" - 24"	\$2.30	\$1.55
Bare root	2' - 3'	\$3.80	\$2.80
Potted	2' - 3'	\$14.50 Each	
Potted	3' - 4'	\$16.50 Each	

### BLACK CHOKEBERRY (Aronia)

Zone 3 - 8. Shrub that suckers, most soil, 3' - 6' tall, edible extremely bitter fruit.

Bare root	12" - 18"	\$2.30	\$1.55
Bare root	18" - 24"	\$2.55	\$1.80
Potted	2' - 3'	\$14.50 Each	

## DECIDUOUS SHRUBS

Species	Size	Prices 25 - 99	Prices 100+
---------	------	----------------	-------------

### COMMON PURPLE LILAC

Bare root	18" - 24"	\$2.55	\$1.80
Bare root	2' - 3'	\$3.80	\$2.80
Potted	2' - 3'	\$14.50 Each	
Potted	3' - 4'	\$16.50 Each	

### HAZELNUT (American Filbert)

Grows 10 feet high and 10 feet wide, grows in all soils. Small tasty nuts eaten by humans and all other animals.

Bare root	8" - 16"	\$1.80	\$1.15
Bare root	16" - 24"	\$2.55	\$1.80
Bare root	2' - 3'	\$3.80	\$2.80
Potted	2' - 3'	\$14.50 Each	
Potted	3' - 4'	\$16.50 Each	

### HIGH BUSH CRANBERRY (Viburnum)

Zone 2 to 7. Round topped shrub 12' high x 10' wide. Red leaves & berries in Fall holding on into Winter.

Bare root	12" - 18"	\$2.30	\$1.55
Bare root	2' - 3'	\$3.80	\$2.80
Potted	2' - 3'	\$14.50 Each	

### IOWA PEACH

Zone 5 to 8. Good to fair soil, fast growth. Best peach for Iowa winters. Large quantities of luscious sweet white peaches that animals and people can eat.

Bare root	2' - 3'	\$3.30 Each	
Potted	2' - 3'	\$27.50 Each	
Potted	3' - 4'	\$37.50 Each	
Potted	4' - 5'	\$47.50 Each	
Potted	5' - 6'	\$62.50 Each	

### MIDWEST CRABAPPLE

Zone 4 to 8. Small tree, 25' tall, lots of small apple berries in Fall.

Bare root	18" - 24"	\$2.30	\$1.55
Potted	2' - 3'	\$14.50 Each	
Potted	3' - 4'	\$16.50 Each	

## DECIDUOUS SHRUBS

Species	Size	Prices 25 - 99	Prices 100+
---------	------	----------------	-------------

### NANNYBERRY (Virburnum)

Large shrub or small tree, 12' - 18' tall, white flowers in Spring & purple berries in Fall.

Bare root	8" - 18"	\$1.80	\$1.15
Bare root	18" - 24"	\$2.55	\$1.80
Bare root	2' - 3'	\$3.80	\$2.80
Potted	2' - 3'	\$14.50 Each	

### NINEBARK

Zone 2 to 8. Dense shrub 5' - 8' tall, white flowers in Spring, very small seed in Fall. Long lived.

Bare root	12" - 18"	\$2.30	\$1.55
Potted	2' - 3'	\$14.50 Each	
Potted	3' - 4'	\$16.50 Each	

### REDOSIER DOGWOOD

10' tall & wide. Grows well in wet or dry soil. Can spread where not wanted & die back with age.

Bare root	12" - 18"	\$2.30	\$1.55
Bare root	2' - 3'	\$3.80	\$2.80
Potted	2' - 3'	\$14.50 Each	
Potted	3' - 4'	\$16.50 Each	

### SERVICE BERRY (Juneberry)

Zone 4 to 9. Grows up to 25' in most soils. White flowers & berries in Summer.

Bare root	12" - 18"	\$2.30	\$1.55
Potted	16" - 24"	\$14.50 Each	

### SILKY DOGWOOD

Zone 5 to 8. Quite attractive and longer lived than other dogwood. 8' - 12' high & wide. Blue berries in August - quickly eaten by birds.

Bare root	12" - 18"	\$2.30	\$1.55
Bare root	2' - 3'	\$3.80	\$2.80
Potted	2' - 3'	\$14.50 Each	
Potted	3' - 4'	\$16.50 Each	

## WINDBREAK & YARD EVERGREENS

	Bare Root 18" - 24" 51 & up		Bare Root 24" - 36"		Potted 18" - 24" 51 - 100		Potted 2' - 3' 51 & up		Potted 3' - 4'

# TRADE SHOWS

**VISIT US AT THE TRADE SHOWS  
WE ARE ATTENDING 2021  
And Discuss Your Planting Needs or just stop  
by and tell us how your trees are doing.**

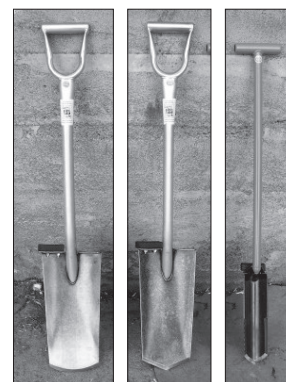

Quad Cities Farm Show - Booth #910  
QCCA Expo Center, Rock Island, IL • Jan. 17, 18, 19

Iowa Ag Show (formerly Iowa Power Farming Show) - Booth #4165  
Iowa Events Center, Des Moines, IA • Feb. 2, 3, 4

Hawkeye Farm Show - Booth #609  
UNI-Dome, Cedar Falls, IA • March 2, 3, 4

## ADDITIONAL ITEMS FOR SUCCESSFUL TREE PLANTING

Round Blade \$98.00

Diamond Point \$97.00

Small Blade \$59.00

### King of Spades Nursery Spade

These spades are rugged and durable, making them a must for any planting job. We used these spades for digging ball and burlap trees and they never broke. They are strong enough to cut through almost anything with its razor sharp rounded edge. There's a reason it's called the "King of Spades", it should last a lifetime with its unbreakable steel handle and rubber foot pad. Try one today and make any planting job easier.

### Miracle Tube Tree Shelters

	1 - 50	51 - 100	101 - 500
60"	\$5.50	\$4.50	\$3.75

**Visit our website for larger sizes  
& specials on trees!

## LARGE TREES

### LARGE YARD TREES

GUARANTEED TO GROW IN 2021 with proper care or will be replaced at no charge.

**TRIUMPH ELM** - Fast growth, disease resistant large tree.

**ACCOLADE ELM** - Fast growth, disease resistant large tree.

**CATHEDRAL ELM** - Fast growth, disease resistant large tree.

**PRINCETON ELM** - Fast growth, disease resistant large tree.

**VALLEY FORGE ELM** - Fast growth, disease resistant large tree.

**HACKBERRY** - Large tree, any soil, fast growth, one of my favorites.

**SUNBURST HONEYLOCUST** - Med. tree, most soils, light shade for good grass growth.

**RIVER BIRCH** - Moderate/rapid growth, beautiful peeling bronze bark, tolerant of wet soils.

**GREENSPIRE LINDEN** - Moderate growth rate, makes a great street tree, has pale yellow flowers in the Spring.

**REDMOND LINDEN** - Moderate growth rate, has largest leaves of the Lindens.

**GREEN MOUNTAIN SUGAR MAPLE** - Large tree, well drained soil, pretty orange to scarlet leaves in fall.

**AUTUMN BLAZE MAPLE** - Hybrid, fast growth.

**BURGUNDY BELLE MAPLE** - Moderate/fast-growing, round to oval dense canopy, magenta or reddish-violet in the fall.

**ROYAL RED MAPLE** - Small tree, 30', not native, sometimes short lived, but red/ burgundy leaves all summer.

**FALL FIESTA MAPLE** - Rapid grower, upright round form, orange and red in the fall.

**FIREFALL MAPLE** - Moderate/fast growing, upright oval form, orange to scarlet in the fall.

**BUR OAK** - Lg. spreading tree, strong limbs, any soil, long life.

**RED OAK** - Lg. tree, most soils except wet, red leaves in fall.

**SWAMP WHITE OAK** - Med. tree, very similar to bur oak, survives in wet places.

**WHITE OAK** - Most majestic oak, wide spreading, most soils except wet.

### ORNAMENTAL TREES

for availability and prices.

## DECIDUOUS SHRUBS

### VILLOSA, LILAC

Later blooming Lilac is a large bushy shrub. Grows 10' tall & 8' wide.

Bare root	18" - 24"	\$2.55	\$1.80
Bare root	2' - 3'	\$3.80	\$2.80
Potted	2' - 3'	\$14.50 Each	
Potted	3' - 4'	\$16.50 Each	

## WINDBREAKS

### EVERGREENS FOR WINDBREAKS AND YARDS

It has been over 40 years since we planted our first windbreak. We have learned a lot in that time, watching trees survive (or not) with droughts, floods, diseases, insects, and extremes of heat and cold. Use our experience to plant the windbreak that will survive in your area.

We sell many different kinds of evergreen trees. Always check your soil conditions and use the proper tree that will do well in your situation. We ship UPS bareroot evergreens coast to coast. They should be shipped before June 1 to avoid excess heat during shipping.

Our potted trees are light, easy to plant and the small amount of roots lost during planting are replaced within 60 days.

By the time the heat and dryness of the summer comes the first year, the plant has a balance of roots to its foliage. Watering is only needed if dry conditions occur. If you provide the proper weed control around these trees, they should be 8 - 12 ft. tall in 5 years.

### EVERGREEN SEEDLINGS

		<u>1 - 24</u>	<u>25-99</u>	<u>100+</u>
Arborvitae	12" - 18"	\$5.00	\$3.80	\$3.30
Red Cedar	9" - 15"	\$5.00	\$2.80	\$2.05
Spruce (White & Norway)	9" - 15"	\$5.00	\$1.80	\$1.30
White Pine	10" - 16"	\$5.00	\$2.80	\$2.05
Concolor Fir	10" - 18"	\$5.00	\$2.80	\$2.05
Canaan Fir	8" - 15"	\$5.00	\$1.55	\$1.30

## OUR GUARANTEE

### Warranty on Trees and Shrubs

- All of our bare root trees and shrubs have no warranty; there are just too many variables to survival on these trees and shrubs.
- Our potted trees do carry a warranty. Windbreak trees carry a warranty that we will replace or refund up to 10% of the trees lost, if you are losing more than that something else is wrong.
- We do not warranty trees that die or are damaged beyond our control such as: droughts, floods, weather, animals (above and below ground) lawn mowers, neglect (no water or no weed control), planted too deep or in sub-soil, winter damage, trees that are resold, or any other causes we have no control over. We can not guarantee plants sent through the mail or UPS.
- For trees to be eligible for warranty replacement we must receive notification by September 1st if planted in the springtime, or July 1st of the next year if planted in the fall. Trees must be returned with roots attached. Warranty does not include the cost of shipping or planting.

### Successful tree planting - Reforestation

We believe that over 50% of a successful planting can be attributed to high quality seedlings with a large root system. The above ground portion of a seedling has little to do with survival and we strive to produce the root system that will survive after transplanting.

We recommend:

1. Kill all competing vegetation with herbicides, tillage does not kill existing vegetation.
2. Use the best tree planting machine you can get if planting over 1,000 trees. Most homemade planting machines I have seen scour the edges of the planting trench and then fail to seal the trench, causing death of seedlings.
3. Use proper spacing - I like 12 ft. between rows and 5 ft. between plants (726 per acre). It fills in fast and lets you mow longer and allows room for a tractor & loader to drive down the rows after 10 years, making pruning much easier from the loader.
4. Use herbicides or mulch to control competing vegetation the first year, but 3 years are better.
5. We like to plant larger red oak in the row and when I mow the last time in the fall for animal control, the red leaves show me where the row is.
6. Plant at least 4 different species, considering the soils present, and no more than 40% walnut.
7. Control destructive animals.

## Information

### KELLYTREE FARM LOCATION

There is a good map on our website. Clarence is located on Hwy. 30 between Cedar Rapids and Clinton in East Central Iowa. Take the blacktop road north of Clarence called X64. Go 1 mile & turn left on Quincy Ave. and go 1 more mile. We're on the left. Map at [www.kellytreefarm.com](http://www.kellytreefarm.com)

### GRASS AND TREES

Iowa is well known for our prairie grass and rich soil. Most grass needs a good soil to survive so when we try to plant trees on good soil, our biggest competition is perennial grasses.

Trees grow very well on good soil with no grass competition. I have seen 2 year planted trees grow 2' - 4' per year when grass and other weeds are eliminated. Grass uses large amounts of water and soil nutrients making them unavailable to trees. Mowed grass may look nice around your trees, but it's not good for the trees.

Annual weed and especially perennial grass control around trees the first 3-5 years or longer will increase growth rates by 100%-200%. Wood chips, soil tillage, or my choice, chemical herbicide can not be stressed enough to get your trees off to a good strong start and give you a larger tree in the shortest time.

### FALL AND SPRING DELIVERY ROUTES

We do delivery routes every Spring and Fall to Spencer, IA and Council Bluffs, IA. If you want to meet us along the route to get trees or have any questions please contact us by e-mail, Facebook or by phone and we can answer any questions and/or put you on the list.

There is a \$3 per tree delivery fee or minimum of \$15 for the delivery route.

Due to limited space in the trailer we only deliver trees that are 6' tall and smaller. These delivery routes are very popular and the trailer does fill up fast.

Delivery dates for the Spring Council Bluffs and Spencer routes are done in April (based on the weather). Please give us a call or check the Kelly Tree Farm website for exact dates.

Delivery dates for the Fall Council Bluffs and Spencer routes are late September and early October (based on the weather). Please give us a call or check the Kelly Tree Farm website for exact dates.

We do plant trees throughout Iowa so you may get on a different schedule than shown here.

**Please Note:** We do not sell bare-root trees in the Fall.

### TERMS OF SALE

1. Customers are invited to inspect our Tree Growing areas. Call ahead.
2. No minimum order if picked up, \$100 minimum if we have to ship it.
3. All prices are F.O.B. Clarence, Iowa 52216.
4. Seller will make every effort to get stock to buyer on date requested; however, seller will not be liable for delays caused by weather and/or other conditions beyond our control.
5. Buyer forfeits the deposit on any cancellations after March 1.
6. We do our best at producing healthy plants and shipping or delivering them to you, but the numerous conditions that may result after delivery is made, which we have no control over, prevents us from guaranteeing the survival of seedlings and transplants.
7. Plant all trees as soon as possible. When you pick up your order here you reduce the chances of shipping delays and drying out of plants.
